About PROJAR

Projar Kitchens is a premier kitchen solutions provider in the UAE, dedicated to delivering top-notch kitchen designs and installations. As the authorized agent for Schröder Küchen, we bring high-quality German craftsmanship and innovative kitchen solutions to our customers.

A Brief History

PROJAR is proud to be Schröder Küchen's trade partners in United Arab Emirates.

Schröder Küchen was founded in 1926 by Gustav Schröder and has been run by family members since then, in the third generation. Initially, the company specialized in the manufacture of kitchen buffets and produced in a small multi-story facility in Bünde. Hermann Schröder, who took over the company from his uncle in 1967, increasingly switched production to fitted kitchens. As part of this restructuring, the company moved to Kirchlengern, as there was an opportunity there to expand the production area.

Today, the company is run by his daughter Kerstin Kröhnert, who wants to continue the success of the traditional family business with innovative and contemporary ideas.

Schröder Küchen has trading partners in Germany, in Europe and on the international market and supplies over 20 countries worldwide, and PROJAR is proud to be one of them. Our kitchens are produced on a total production area of 12,500 m². A large selection of modern and individually plannable kitchen ideas can be viewed in the in-house exhibition. See for yourself the diverse design options and flexible technical solutions that Schröder Küchen offers you.

Mission --- and Vision

Our mission is to transform kitchens into functional, stylish, and personalized spaces. We strive to be the leading kitchen provider in the UAE, known for our commitment to quality, customer satisfaction, and innovative designs.

Exceptional
